

# 8

**Paper by: Armant Steenkamp**

**Case Study: Revenue Management**

A better understanding of the Debtors book of the City of Johannesburg and its challenges. Specifically assessing the opportunities and challenges in data integrity. Addressing the key role of uniform billing systems and the underlying role of customer education programmes to build a better customer relationship and to create a culture of payment. Looking ahead - new challenges, strategies and solutions for effectively collecting municipal debt and dealing with social obligations.
